### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312.

To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hespos on 8-16-04.

2. The application has been amended as follows:

3. -- Cancel claim 2.

-- Replace all previous listing of claims with the listing attached hereto.

4. The following is an examiner's statement of reasons for allowance:

- The following is a statement of reasons for the indication of allowable subject matter: The prior art does not show the protrusion spaced inwardly from the portion of the grommet and the jaw having the protrusion is thicker than the area of that the jaw that overlies the jaw (claim 1) and a protrusion having a substantially U-shaped outer portion arranged parallel to the outer peripheral surface of the terminal accommodating portion, an inner wall, and couplings located extending between the outer portion and the inner wall (claim 8) in combination with all the other elements of the claim and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Art Unit: 2833

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The following is an examiner's summary of the interview: During the interview, it was agreed that it would not be obvious to combine prior art because of the claimed orientation, location, and structure of the claims.
